

UVSS (Under Vehicle Surveillance System)

Contraband Detection

- ▶ UVSS will enable your security staff to perform high quality and highly efficient inspection against explosives, weapons, narcotics, and other illegal objects hidden under vehicles at the security check post.
- ▶ Applications :- Defense Facilities / Government Buildings / Embassy Compounds n Energy Plant Entrances / Correctional / Prison Facilities for Sally Ports / Underground Parking Garages / Residential Complexes / Palaces and Presidential Residences / Hotels, Casinos, and Resorts / Stadiums / Public Event Venues (on Lease/Rental-Based Program) / Office Complexes / Insurance Claim Center Drive-Throughs (Single/ Two-Camera Portable Systems) / Borders n Parking Lots.
- ▶ Our UVSS solutions are designed to scan, monitor, and digitally record crisp, clear digital video images of the entire width of a vehicle's undersides—all with one permanent or portable system. Careful integration of components makes the UVSS a cost-effective and convenient solution for checking passenger vehicles, vans, buses, semi tractors, trucks and trailers, and more. It's an ideal solution for governmental, military, corporate, and transportation facilities—wherever complete vehicle monitoring is required. Advanced imaging and LED illumination provide clear, high resolution video of the vehicle's underside to help detect attached packages, explosives, and other objects. For monitoring, images are processed by digital video recorder (DVR) capable of recording 4-16 channels simultaneously and then displaying moving images on screen. The UVSS DVR delivers the full picture of a vehicle's entire width and length for a fraction of the cost of less capable systems.
